I would like to manage the collation of data for a particular period

I would like to take responsibility for collating the data for the entire project

Perhaps you have found passenger lists, captains reports, surgeons reports, shipboard diaries, ship images or anything else associated with a particular ship. Of course all data we add will need to be fully sourced, so please think about this before you answer this question.

Yes, I have records that would add to this collection

No, I do not have any records but would love to help find them
